FREIGHT
CENTRE**

Conveyor loading bulk fertiliser into truck

Pallets and bulk bags stored in the warehouse

KiwiRail wagons waiting to be loaded

FACILITIES

The Intermodal Freight Centre offers customers a 4,000m² warehouse with a rail connection servicing the Otago and Southland regions.

Benefits of the Intermodal Freight Centre include:

- › Port neutral
- › Transport neutral
- › Customs controlled area and MPI transitional facility

Activities on site:

- › Container handling
- › Container unpacking
- › Container packing
- › Container wash facility
- › Cargo handling
- › Transit storage
- › Short term storage
- › Bulk container tipping
- › Bulk load out to truck via conveyor

The Intermodal Freight Centre uses the same terminal operating system as South Port, allowing transfer of containers between the two sites for shipping lines calling at Bluff.

LOCATION

Strategically located adjacent to the Invercargill KiwiRail rail head on Mersey Street, the Intermodal Freight Centre allows importers and exporters in Southland and Otago to distribute their products in a timely and efficient manner.

Benefits of this location include:

- › Connections to a large number of shipping services and shipping lines
- › Reduced supply chain costs
- › Closer to the market
